OFFICE OF THE SECRETARY TO THE PRESIDENT
New Delhi, the 22nd November 1951

No. 57-Pres./51.—Corrigendum.—In the Gazette of India (Extraordinary) Notification No. 2-Pres., dated

the 26th January 1950, under the heading "Indian Army" Vir Chakra (page 650) against the regimental number IO-57858 for 'Ajit Singh' read 'Jit Singh'.

New Delhi, the 23rd November 1951

No. 58-Pres./51.—The President has been pleased to award the Police Medal for gallantry to the under-mentioned officer of the Madras Police:—

Name of the officer and rank.—Nagar Balasubramania Anantaraman, Inspector of Police.

Statement of services for which the decoration has been awarded.—One Manavalan Pillai, a virulent outlaw of Madurai who had gone underground 18 months previously was found to be the author of several acts of violence and had gathered around him a "Death Squad". Sri Anantaraman, Detective Inspector, on the night of 19th November 1949 located the house in which Manavalan Pillai and his "Death Squad" were hiding. He immediately set out with an armed force and skillfully surrounded the house at about 23.20 hours and approached its eastern entrance. When the Inspector was about 15 feet from the entrance he flashed his electric torch whereupon Manavalan, leader of the aforesaid "Death Squad", rushed out from the house and threw a country bomb at the Inspector with intent to kill him. The bomb missed the Inspector and struck an informant causing an injury on his right fore-arm on explosion. Manavalan again raised his arm to throw another bomb at the Inspector when the latter whipped out his revolver and fired one round in self-defence and shot Manavalan through the chest and killed him. The Police party then rushed into the house and arrested 8 dangerous outlaws and recovered 28 live bombs from them.

The Inspector displayed conspicuous courage and presence of mind in rounding up at great personal risk a band of dangerous outlaws who were armed with deadly weapons.

2. This award is made for gallantry under rule 4(i) of the rules governing the award of the Police Medal and consequently carries with it the special allowance admissible to officers of and below the rank of Inspector of Police as provided in rule 5.

MINISTRY OF COMMERCE AND INDUSTRY

PUBLIC NOTICES

IMPORT TRADE CONTROL

New Delhi, the 23rd November 1951

SUBJECT:—Import Trade Control—Established Importers—Registration of Quotas—Simplification of licensing procedure.

No. 185-ITC(P.N.)/51.—Attention of importers is invited to Ministry of Commerce and Industry Public Notice No. 173-ITC (P.N.)/51 dated the 24th October, 1951 regarding the procedure for the issue of quota licences to established importers of miscellaneous hardware falling under Serial No. 275 of Part IV of the Import Trade Control Schedule. In columns 7 and 8 of Annexure "A" of the said Public Notice, which Registered/Chartered Accountants are required to certify, particulars are to be furnished by importers in regard to the number and date and the value of licences granted to them since January 1950, for goods falling under Serial No. 275 of Part IV of the Import Trade Control Schedule. Representations have been received that as licences issued in the past will not be available with the importers, verification of these particulars by Chartered Accountants will not be possible. It has, therefore, been decided that where Registered/Chartered Accountants are not able to verify the particulars furnished in columns 7 and 8 of Annexure "A", the importers furnishing the information will themselves be held responsible for the correctness of the details furnished therein and that the Registered/Chartered Accountants may add an endorsement to that effect in the form.

New Delhi, the 27th November 1951

SUBJECT:—Grant of Emergency licences for replacement parts for industrial plant and machinery.

No. 186-ITC(P.N.)/51.—Under the existing Import Trade Control regulations spare parts of machinery required for replacement purposes and falling under Serial No. 36(5) of Part II, Serial No. 4(5) of Part III and Serial No. 65(5) of Part V, of the Import Trade Control Schedule are freely licensed from all countries to actual users. The fullest facilities, therefore, exist

to enable actual users to cover their normal requirements. It has, however, been represented that quite often actual users are not in a position to arrange for the import themselves and prefer to obtain their supplies through the ordinary trade channels. In such cases too, it would be simplest for the Actual User concerned to obtain a licence with a letter of authority in favour of the importer concerned.

2. Cases, however, do arise whether the replacement parts are required on an emergency basis for despatch by air e.g. when production has come to a standstill on account of the unforeseen breakdown. In such circumstances it is represented that the need to apply for a licence in the normal way after the emergency has arisen only leads to the loss of many precious working days. To meet such contingencies, it has, therefore, been decided to introduce a scheme for the issue of emergency licences to established importers.

3. Emergency licences will be granted to established importers subject to the following conditions:—

- these licences will only be granted for replacement parts (including component parts as defined in Indian Customs Tariff Item No. 72(3) of machinery falling under Serial No. 36(5) of Part II, Serial No. 4(5) of Part III and Serial No. 65(5) of Part V of the Import Trade Control Schedule;
- the value of these licences will be limited to 10 per cent. of the value of current licences held by Established Importer for goods falling under the Serial numbers specified in (a) above, subject to a maximum of Rs. 10,000 in the individual case;
- these licences will only be valid for import by air and for a period of 12 months from the date of issue;
- imports made under these licences will not be taken into account in calculating quotas.

4. Emergency licences will be granted by the Import Trade Controllers at the ports on presentation of a current licence for goods falling under the Serial Nos. specified in (a) above, accompanied by a Treasury Receipt for the prescribed fee.

5. In cases where it is not possible to effect the import by air, an application for an emergency licence should be made to the Chief Controller of Imports (Emergency Licence Application), Post Box No. 284, New Delhi, as and when the emergency arises. The application need not be made in the prescribed form but it would be necessary for the Established Importer, to forward the licence held by him referred to in para. 3(b) above, together with a Treasury Receipt for the appropriate license fee. Precise particulars of the emergency giving rise to the import requirement should be furnished, supported by a confirmatory letter from the actual user and the reasons why import cannot be made by air should be fully explained.

6. Emergency licences will not be renewed unless the party furnishes precise particulars in form 'A' attached of imports made under the previous emergency licence and the use to which those imports have been put.

RESOLUTION

TARIFFS

New Delhi, the 1st December 1951

No. 18(2)-T.B./51.—The Tariff Board was asked to investigate the claim of the machine screw industry for protection and assistance. The Board having considered the matter has submitted its report and made the following recommendations:—

(i) Iron and steel machine screws should be shown against a new item in the Tariff Schedule and a protection duty at the rate of 30 per cent. *ad valorem* (or 31½ per cent. inclusive of surcharge) be levied thereon in place of the existing maximum duty of Rs. 46/9/- per ton.

(ii) The protective duty recommended should remain in force for a period of 3 years.

(iii) No concession in respect of import duty on raw materials is necessary.

(iv) Sufficient imports of die steel and special steels should be permitted so as to meet the requirements of domestic industries including the machine screw industry.

(v) Government should give the manufacturers of machine screws reasonable facilities for the import of special types of machinery required for the manufacture of machine screws.

(vi) The Central and the State Governments should endeavour to meet the requirements of the indigenous machine screw industry for steel and mild steel wire to as large an extent as possible, and also take suitable steps to ensure prompt deliveries.

(vii) Government Departments should, as far as possible, obtain their requirements of machine screws from indigenous producers provided the quality is satisfactory and the price is reasonable.

(viii) Since most of the demand in the country for the type of machine screws within the scope of the enquiry can be met by the indigenous manufacturers, the desirability of maintaining and expanding the indigenous production of machine screws should be kept in view and the quantum of imports regulated accordingly so long as the policy of licensing imports has to be continued for balance of payments considerations.

(ix) Arrangements should be made with the Director General of Commercial Intelligence and Statistics and the Collectors of Customs to record, in future, imports of machine screws separately under the following heads:—

Machine Screws:—(1) Iron or Steel;

(2) Brass;

(3) Other non-ferrous metals.

(x) There is still considerable scope for improvement and with improved equipment, better technical supervision and an adequate provision for research, the industry can turn out a product which will give still greater satisfaction to the consumer.

(xi) The Indian Standards Institution should take up the question of evolving standard specifications for the products of this industry at an early date.

(xii) The producers of machine screws should approach the National Metallurgical Laboratory, Tatanagar, for assistance in testing the materials to be used in the manufacture of different types of machine screws.

(xiii) The industry should take steps to diversify its production by undertaking the manufacture of such varieties of machine screws as are not produced at present.

(xiv) The machine screw industry should pay greater attention to developing a proper marketing organisation.

(xv) The manufacturers of machine screws should take up the matter of transport facilities and concessions directly with the transport authorities concerned.

(xvi) The firms manufacturing machine screws in the country should take early steps to convert themselves into public limited companies.

(xvii) The industry should make arrangements to pool the requirements of individual factories for the raw materials and place bulk orders with the manufacturers.

(xviii) All the units in the industry should submit progress reports to the Board by 31st January of every year or at such shorter intervals as the Board may

indicate later, giving information regarding production, sales, stocks, cost of production and selling prices. Such reports should also include information regarding the supply of raw materials, the landed costs and selling prices of the imported products and other factors having a bearing on the competitive position of the industry.

2. Government accept the recommendations of the Board. Steps are being taken to implement recommendations (i) and (ii). Recommendations (iv), (v), (vi), (vii), (viii), (ix) and (xi) will be given effect to, as far as possible.

3. The attention of the industry is invited to recommendations (x), (xii), (xiii), (xiv), (xv), (xvi), (xvii) and (xviii).

NOTIFICATION
